

## APPLICATION FORM FOR NEW MEMBERSHIP

The Braamfontein Spruit Trust was created in 1981 to supplement the work done by the Municipalities of Johannesburg, Randburg and Sandton in the creation of COCCOS and the development of public recreational facilities on the rivers and ridges of the Witwatersrand.

### The BST aims to

- ensure sound environmental practices for the rivers and surrounding areas
- support CBOs and NGOs in reaching their objectives
- encourage initiatives focusing on sound environmental management
- identify and promote sustainable projects
- initiate specific projects focusing on supporting sustainable development in the catchment area in order to ensure a clean, sound river system that is used and appreciated by all communities

*We need your participation*

The Trust's priorities are to:

- Encourage and promote public participation to conserve, preserve, protect and enjoy the environment
- Act as a fund-raising body for projects involving the river and ridge system.
- Activate public participation in events such as walking and hiking the trails, talks, special interest activities and to co-operate with other conservation oriented bodies, service clubs, etc.
- Stimulate projects through educational institutions
- Create publicity on open space and publish informative literature on the spruit systems.
- Organise and fund public days and regular weekend trails.
- Support initiatives to increase security on the spruit systems in and around Gauteng
